WORK & LEADERSHIP EXPERIENCE

Cloud Analyst August 2024 - Present

Foot Locker Inc. | Dallas, TX

In this role I have maintained a healthy cloud spend for a large organization, while promoting new innovations within the cloud.

- Monitor, analyze, and report on cloud spending across two Cloud Service Providers.
- Maintain and develop cloud cost dashboards in Power BI.
- Maintain a 0% Variance between yearly cloud spend for Foot Locker Inc.
- Became well versed in multiple ways to optimize and maintain a healthy cloud spend for organizations that spend over \$10M
- Revise and establish tagging standards for accurate cost allocation and cloud governance.
- Work closely with Leadership, Finance, and engineering to create optimization strategies.
- Empower teams to become aware and take ownership of their cloud cost through scheduled check ins.
- Received my FinOps practitioner certification on March 20, 2025 (Certification # 95bmturgxrsk)
- Received my FinOps Focus Analyst certification on September 10,2025 (Certification #8cv3oh64hakf)

Data Governance and Cybersecurity Analyst Intern June 2024 - August 2024

Foot locker.Inc | Dallas, TX

I gained hands-on experience in security compliance, data governance , application security, security compliance, and threat vulnerability management, security operations, and identity access and management.

- Contributed to developing data governance frameworks, conducting vulnerability assessments.
- Assisted in monitoring security incidents, CVE's, analyzing threats, and supporting incident response efforts.
- Worked with tools such as Splunk, XSOAR,Tenable, Threatstream, Microsoft Defender,Azure, and BigID.
- Collaborated with other interns on reports and daily meetings.

Data Analyst Intern February 2024 - May 2024

Entergy | New Orleans, LA

In this internship I am displaying my data analysis skills for creating a easier tool for customers to use and track their energy usage.

- Utilizing PowerBI to create emission summary reports for companies by fiscal quarters.
- Completed training through Salesforce.
- Met Bi-Weekly with my manager for progress check ins.

**National Nuclear Security Administration Minority Serving Institute
Internship Program Intern**

June 2023 - May 2024

Department of Energy | Washington, D.C.

- Supported the advancement of the Department of Energy's mission through the office of Defense Programs by implementing strategic planning techniques, driving innovative solutions, & **achieving/exceeding program objectives**
- Enhanced operational efficiencies through research, development, testing, & evaluation initiatives at the National Nuclear Security Administration, employing **lab-based experiments, field testing procedures, & simulation models**
- **Sat in on weekly meetings with the research, test, and development team as well as team leads from Nuclear labs.**

Data Analysis Research Student| Grambling, LA

January 2023 - February 2023

Louisiana Academy of Science | Grambling, LA

- Utilized Rstudio to conduct data analysis methods and produce accompanying graphs and charts.
- Searched for the correlation between each county in the U.S. hospital emergency access centers with the Fatalities for the counties due to COVID-19.
- Created a person correlation test using RStudio
- Presented this research to the Louisiana Academy of Science and won Best Oral Presentation

Product developer Intern

May 2022

System Management Technology Inc. | Falls Church, VA

- Improved software functionality & security measures by collaborating with the **vice-president at a client's company** to update software & implement enhanced security protocols on all employees' & customers' computers, incorporating antivirus software & firewall protection
- Developed interactive learning courses in HTML & JavaScript to enhance new military members' proficiency in **safely handling firearms**
- Led critical peer reviews on courses leveraging **peer evaluation methods**, resulting in a significant enhancement in course quality
- Provided instructions to two new interns as they learned the basics of the company
